Summary

Objective:

Dedicated Frontend Developer with 2 years of experience creating visually stunning, responsive, and user-friendly web interfaces. Proficient in HTML, CSS, and JavaScript, with a passion for optimizing performance and ensuring top-notch user experiences. Seeking to contribute my expertise to a dynamic development team. Committed to staying updated with the latest web development technologies.

Skills:

- Proficient in HTML5, CSS3, JavaScript (ES6+), and modern frontend frameworks (e.g., React, Angular, or Vue.js).
- Responsive and mobile-first web design.
- Cross-browser compatibility and debugging.
- Web performance optimization (e.g., lazy loading, image compression).
- Version control with Git.
- Strong problem-solving and debugging skills.
- Collaborative team player with excellent communication skills.
- Continuous learning and adaptability to new technologies.

In my work experience, I have collaborated closely with design teams to ensure that their visions are brought to life in the final product. I am skilled at translating design concepts into code and implementing them in a way that not only looks great but also enhances the user experience.

Experience

Frontend Developer
GIIT Africa

Jun 2021 - Jun 2023 (2 years 1 month)

Collaborate with designers and back-end developers to translate wireframes and mockups into interactive and visually appealing websites.
- Develop and maintain code for client websites, ensuring optimal performance, usability, and accessibility.
- Implement responsive design techniques to provide seamless user experiences across various devices and screen sizes.
- Optimize website performance by minimizing HTTP requests, leveraging browser caching, and using performance monitoring tools.
- Conduct code reviews, troubleshoot issues, and provide solutions to enhance website functionality and usability.
- Stay up-to-date with industry trends and emerging technologies to recommend and implement improvements.

IT
GIIT Africa

Jun 2021 - Aug 2021 (3 months)
- Assisted in the development of web applications and participated in coding and debugging tasks.
- Collaborated with the design team to implement responsive layouts and ensure pixel-perfect design execution.
- Conducted usability testing and gathered user feedback to make iterative improvements to the user interface.
- Worked closely with senior developers to learn best practices in web development and coding standards.

Education

🔍 **Institute Universitaire du Benin**

Bsc, Information Technology

2020 - 2023

Summary of knowledge:

1. Website Design.
2. HTML/CSS Development.
3. JavaScript Development.
4. Responsive Design.
5. Cross-Browser Compatibility.
6. Performance Optimization.
7. Accessibility.
8. Version Control.
9. Collaboration.
10. Testing and Debugging.
11. Keeping Up with Trends.
12. User Experience (UX).
